Pune | Mumbai | Bengaluru

Summary

Senior Product Designer with 9+ years of experience designing complex enterprise platforms across cybersecurity, fintech, blockchain, and digital public infrastructure. Led central design initiatives for mission-critical investigative systems and built scalable design systems for high-security environments. Specialized in AI-assisted workflows, trust-first interfaces, and systems thinking for regulated and high-stakes sectors.

Experience

Senior UI/UX Designer December 2023 – November 2025

Pinaca Technologies

Led Central Design Team for cybersecurity and investigative intelligence platforms.

- Redesigned multi-layered investigative dashboards, reducing analyst task completion time by ~25–35% through workflow consolidation and improved information hierarchy
- Simplified case management flows, decreasing navigation steps by 30% and improving cross-functional usability across field and intelligence teams
- Built and scaled a unified design system across 3+ security products, reducing UI inconsistencies by ~40% and accelerating feature release cycles by 20–25%
- Introduced UX review framework that reduced rework during development by ~30%
- Designed for high-cognitive-load environments, prioritizing error prevention and rapid decision support
- Mentored 6 designers and established centralized UX documentation standards

UI/UX & Product Designer July 2022 – Nov 2023

Folium Labs (Blockchain Fintech Startup) | Bengaluru

Designed UX for blockchain-based fintech platform serving B2B and digital asset workflows.

- Led visual language and interaction design for dashboards, blockchain workflows, and user journeys
- Simplified complex financial and blockchain processes into intuitive, task-driven flows
- Created data-heavy interfaces optimized for decision-making and operational efficiency
- Collaborated with product and engineering to ship iterative releases in an early-stage startup environment

UI/UX Design Consultant Dec 2025 – Present

Goa

Providing UX strategy and product design for cybersecurity and governance-focused digital products.

- Clients include: Pinaca Technologies / Saptang Labs (investigative & security systems), Coolture Design (tangible product innovation & Indian timekeeping systems)
- Focus: scalable digital systems, product clarity, and strategic UX alignment

Design Consultancy 2017 – 2020

Goa, Hyderabad & Chennai

- Experience design for public events and interactive environments
- Designed spatial and experiential systems for children's learning spaces
- Led conceptual design experiment "Game of Trust – Swayambhu Seed"

Visual Designer 2011 – 2013

Cognizant Technology Solutions | Pune

- Delivered visual and communication design for enterprise clients
- Contributed to digital system standardization and brand consistency initiatives

Education

Master of Design (New Media) 2014 – 2017

National Institute of Design (NID), Gandhinagar

Transdisciplinary program exploring intersections of culture, technology, and systems design.

PG Diploma in Public Leadership 2021 – 2022

Rashtram, Rishihood University

Focused on India-centric public policy, governance systems, and institutional design.

Bachelor of Fine Art (Applied Arts) 2007 – 2011

Goa College of Art

Foundation in visual communication, advertising, film-making, and design fundamentals.

Skills

Product & UX

- Enterprise UX
- Complex Systems Design
- AI-assisted Workflows
- Investigative & Data-heavy Platforms
- Design Systems
- Information Architecture
- Interaction Design
- High-security & Regulated Environments

Tools

- Figma
- Adobe Creative Suite
- Prototyping Tools
- Design System Documentation

Current Focus

UI/UX for Agentic AI systems

Designing human-AI collaboration models for critical and decision-driven sectors.
